## **Preface**

*The major objective of publishing this Bulletin is to provide the public at large with the relevant information and data regarding external and domestic debt position of the country. However, it does not encompass any analysis, as the aim is to give the user the liberty of using the data when carrying out its own research.*

*The Bulletin is structured as follows: Part I covers general information and accounting principles including the coverage, methodology, classification, source, revision policy, fiscal year and frequency and time lag of publishing the Bulletin. Part II and Part III contain statistical tables and figures, respectively. Finally, Part IV gives the standard definitions of some concepts and terminologies used in public debt management, which is believed to give the reader a better understanding and avoid misapprehension of the figures.*

## **GENERAL INFORMATION & ACCOUNTING PRINCIPLES**

# PART I

## GENERAL INFORMATION & ACCOUNTING PRINCIPLES

### 1. COVERAGE

*‘Public Sector Debt Statistical Bulletin’* provides information on the public debt including:

- (i) *the central government external debt,*
- (ii) *the government-guaranteed external debt,*
- (iii) *the non-guaranteed external debt,*
- (iv) *the central government domestic debt, and*
- (v) *the government-guaranteed domestic debt.*

The central government external debt refers to all external loans contracted between external creditors and MoF; while the government-guaranteed external debt comprises of loans and suppliers credits contracted by public enterprises, mainly the Ethiopian Electric Power (EEP), Ethiopian Electric Utility (EEU), Ethiopian Sugar Corporation (ESC), Ethiopian Railways Corporation (ERC), Ethiopian Shipping Lines (ESL) and guaranteed by MoF as well as the state owned bank- the Commercial Bank of Ethiopia (CBE). The non-guaranteed external debt, on the other hand, includes loans contracted by public enterprises, mainly the Ethiopian Airlines (EAL) and Ethio-Telecom (former ETC), without government or government owned bank guarantee. Domestic debt covers the debt of the central government in forms of government bonds , treasury bills , direct advance from the central bank, Corporate Bonds, long and Short term loans owed by SOEs . In future editions consideration will be given to extending the coverage to on-lent loans, as well as major debt sustainability indicators of the country.

### 2. METHODOLOGY

**2.1 Database:** The Debt Management Directorate (DMD) of MoF uses Debt Management and Financial Analysis System (DMFAS) of UNCTAD to record detail loan information and produce aggregated data and reports for the public sector debt.

**2.2 Converting Debt Data to a Common Currency:** To produce summary tables, the debt data has to be converted into a common currency, usually the US dollar or ETB, as follows:

- Stock figures: to convert stock figures into US dollars or ETB, end period exchange rate is used.
- Flow figures: to convert flow figures into US dollars or ETB, exchange rate as day of transaction is used.

**2.3 Treatment of Arrears (Debt under negotiations for Debt Relief Comparable to HIPC Terms ) :** As the bilateral debt reorganization negotiations with some of the non-Paris Club and commercial creditors have not yet been finalized, the government

has been accumulating principal and interest arrears and the amount is included in the total outstanding debt.

**2.4 Treatment of Debt Reorganization:** Ethiopia has benefited from Paris Club debt reorganizations, HIPC Initiative, MDRI as well as bilateral debt reduction agreements with non-Paris Club and commercial creditors. Specially, in relation with the implementation of the HIPC Initiative and usage of the HIPC funds, a special bank account has been opened at the National Bank of Ethiopia, where the savings from the debt service due could be deposited until it is channeled to the central treasury account.

### **3. CLASSIFICATIONS**

The classification of the debt data used in this bulletin mostly complies with the international standards indicated in the ‘External Debt Statistics: Guide for Compilers and Users’, with some customization to own use.

### **4. SOURCES**

**4.1 Debt Data:** The primary source of information for the debt statistics is the debt database administered by the Debt Management Directorate (DMD) of the Ministry of Finance using Debt Management and Financial Analysis System (DMFAS) of UNCTAD.

**4.2 Exchange Rate:** The exchange rates used for compiling debt data are obtained from the National Bank of Ethiopia (Daily Transaction Exchange Rates).

### **5. REVISION METHOD**

Debt data indicated in the very last period of the observation period usually are subject to changes and, therefore, are labeled as ‘P’ to indicate that they are provisional. Disbursement documents are sometimes received after two to three months lag and the database has to be updated when documents are received. This leads to changes in figures for disbursements and outstanding debts; and subsequent editions would come up with revised figures, labeled as ‘R’.

### **6. FISCAL YEAR**

Even though the Ethiopian fiscal year runs from July 8 to next July 7, the fiscal year covered in the Bulletin is from July 1 to June 30. This is mainly because the reports submitted to various international organization covers this period and it is necessary that the figures tally with standard publications.

### **7. FREQUENCY & TIME LAG**

This Statistical Bulletin is published quarterly with a time lag of one quarter.

## Recent Development

The government has adopted a comprehensive reform package directed towards strengthening macroeconomic governance, including the modernization of various legal frameworks. Risks mainly stem from external developments, slower than anticipated implementation of committed structural reforms, and weather-related shocks. The Government recognize the current economic challenges and their comprehensive reform programs, including SOEs reform is aimed at rebalancing the macroeconomic framework and achieving a more diversified growth base by, for instance, investing in human development and improving competitiveness.

COVID-19 pandemic that disrupt economic activity throughout the world which also negatively affected our economy, economic growth and exports, and hence the country was eligible for the G20 Debt Service Suspension Initiative.

### Key highlights:

### **DEFINITIONS**

## DEFINITIONS

It is hoped that the following definitions could help the reader to understand the concepts and correctly interpret the figures provided in the various tables. The definitions are taken from:

- ‘External Debt Management: An Introduction’, by Thomas M. Klein, World Bank Technical Paper No. 245
- ‘External Debt Statistics: Guide for Compilers and Users, BIS, ComSec, Eurostat, IMF, OECD, Paris Club Secretariat, UNCTAD, World Bank, 2003’.
- Debt and DMFAS Glossary, UNCTAD, 2008

### A

**Allocation of a Tranche:** All or part of a loan/grant tranche assigned to finance projects or programmes.

**Amortization:** The repayment of principal of a loan spread out over a period.

**Amortization Schedule:** The schedule for the repayment of principal and payment of interest on an ongoing basis.

**Arrears:** The total of scheduled debt service payments that have fallen due but remain unpaid.

**Average time to maturity (ATM):** An indicator that measures the weighted average time to maturity of all the principal payments in the debt portfolio.

**Average time to Re-fixing (ATR):** An indicator that measures the weighted average time until all principal payments in the debt portfolio becomes subject to a new interest rate.

### B

**Bilateral Creditor:** In DMFAS, it refers to a type of creditor in the context of external debt. Official bilateral creditors include governments and their agencies (including Central Bank), autonomous public bodies or official export credit agencies.

**Bilateral Debt:** Loans extended by a bilateral creditor.

**Borrower (debtor):** The organization or the entity defined as such in the loan contract which usually is responsible for servicing the debt.

### C

**Cancellation:** An agreed reduction in the undisbursed balance of a loan commitment.

**Commercial Credit:** In the context of the Paris Club, loans originally extended on terms that do not qualify as official development assistance (ODA) credits.

**Commercial Interest Reference Rates (CIRR):** A set of currency-specific interest rates for major OECD countries.

**Commitment:** An obligation to furnish resource of a given amount under specified financial terms and conditions.

**Commitment Charge (fee):** Charge or fee made for holding available the undisbursed balance of a loan commitment.

**Commitment Date:** The date on which the commitment occurs.
